Muslim Tourism in Hakone

An Indonesian married couple's first trip to Japan!

Hakone, which can be easily reached from Tokyo and has a wealth of sights to see, is an excellent location to enjoy beautiful views of Mount Fuji. An Indonesian husband and wife took a 2-day trip to Hakone, where they reported on their delightful experiences from their Muslim viewpoint.

SPOT01

Romancecar

Taking a special trip by Romancecar

The Odakyu Romancecar is a comfortable and easy way to get from Shinjuku to Hakone. In roughly 85 minutes from Tokyo (Shinjuku), Intan and Harry arrived at Hakone-Yumoto Station, the beginning of their Hakone trip. Beverages and snacks are available for purchase in the car as well. When Mount Fuji appeared on the right side after about 50 minutes of traveling, it was greeted with a round of applause from both Intan and Harry. They had an excellent start to their trip, remarking "Since the windows were so big, the scenic views from the car were spectacular!"

SPOT02

Hakone Yuryo

Have quiet prayers in a private room, and fully refresh yourself in an open-air bath!

Hakone Yuryo is a hot spring facility specially catering to travelers on one-day trips, with a theme of providing hospitality in the form of both hot baths and food. The facility contains private rooms where families can enjoy comfortable bathing, as well as large communal baths, and also includes a restaurant that uses local ingredients, so guests can relax as they desire. The private rooms in particular let people not accustomed to communal baths freely and casually enjoy the hot spring to their heart's content.

SPOT03

A casual hands-on workshop for making traditional crafts

"Yosegi" (marquetry) craftwork involves cutting various kinds of wood into small pieces, and then putting them together to form a pattern or shape. Expert craftsmen can create incredible patterns using paper-thin pieces or complex curved shapes. There are many different variations on what can be made, including plates, cases, cups, and trophies, and visitors can buy them as gifts to take home. The yosegi work of Hakone is particularly famous, and among these workers, Kanazashi Woodcraft is well-known for offering hands-on workshops.

SPOT04

Sumptuous Japanese cuisine and a breathtaking view

This is a hotel built on land owned by a financial family group and used as a villa over 100 years ago, which offers sweeping views of Lake Ashi from its rooms. Various kinds of food are available for dinner, but it is definitely recommended to try the Japanese cuisine. The dishes, prepared with masterful skill using seasonal ingredients, will be sure to leave you with fond memories.

Day 2

Muslim Tourism in Hakone

SPOT01

Hakone-jinja Shrine

The feel of traditional architecture

This is a shrine along the historic highway extending from Tokyo to Kyoto where many people passing by have gathered for religious visits since long years ago. It also has a torii gate in Lake Ashi, which has become a landmark of Hakone since it can be seen from many different places.

SPOT02

Narukawa Art Museum

A grand view of Mount Fuji and Lake Ashi, all to yourself

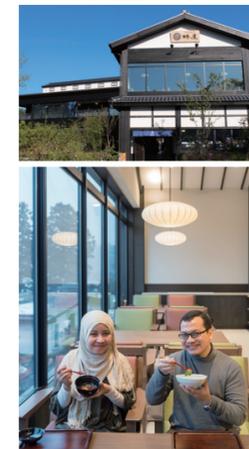

One of the features of Narukawa Art Museum is the magnificent view that can be seen from its Panorama Lounge. After entering the museum, if you proceed to the Panorama Lounge in front, you will be able to see Lake Ashi and the torii gate of Hakone-jinja Shrine below you. It was unfortunately raining on this day, but if the weather is clear Mount Fuji can be seen beyond Lake Ashi.

SPOT03

Shopping and resting at the lakeside

Intan and Harry visited "Hotoriya", newly opened at Hakone-machi-Ko. This is a multi-purpose facility that opened in January 2016, which includes eating and drinking establishments and gift shops. The architectural concept of the building is a "honjin", a kind of headquarters for samurai to rest during their long journeys. While it has been made to be modern and refined, it is also a place where you can feel the atmosphere of historic Japan. From the café on the 2nd floor, sightseeing cruise ships can be seen traveling across Lake Ashi with Mount Fuji in the background.

SPOT04

Enjoying Lake Ashi on an unusual ride

Both Intan and Harry were very curious about the boat on Lake Ashi that they could see from Hotel de Yama and Hakone-jinja Shrine. It's actually an operating pirate ship! This is a pirate ship sightseeing cruise that started operation in 1964. Traveling between sightseeing locations with major bus stops like Togendai-Ko which connects to the Hakone Ropeway, Hakone-machi-Ko, and Moto-Hakone-Ko, it is very convenient to use. Looking out from the ship you can see unique and special scenic views as well, so taking a ride is highly recommended.

SPOT05

Having a top-class meal at a building designated as a cultural heritage

non-alcohol non-pork

"Daruma Ryoriten", in Odawara's urban district, is a restaurant with a long history that was established in 1893. The building it is located in, constructed in 1926, has been designated as a registered tangible cultural property. With its design style extending to the smallest details, it is a place where you can experience history and art just by entering. It serves Japanese cuisine including sashimi, sushi, and tempura with extravagant use of fresh seafood caught locally in Sagami Bay.
