### Beppu: A Friendly City for Visitors from Overseas!

Beppu City is located in almost the center of the east coastal area of Oita Prefecture, which is in the north east of Kyushu Island and facing the Seto Inland Sea. From Fukuoka City, it is reachable by car or train in about 2 hours. The city is spotted with eight different hot spring areas – the so called "Beppu Hatto" and boasts the largest amount of hot spring water discharge (over 87000 liters per minute) and its highest density of hot springs in Japan. The hot springs in the area have long been used by the locals on a daily basis for bathing and medical use as well as for tourism and industrial purposes. Beppu has thus prospered as one of the most famous hot spring towns in Japan and today considered as an international hot spring tourist city with rich history and culture. The city also has many other tourist attractions such as Jigoku Meguri tour and amusement parks including Mt. Takasaki Natural Park, Umitamago Aquarium, Harmonyland, Beppu Ropeway, and Kijima Kogen Park. Beppu has a population of over 120 thousand, which is the second largest after Oita City in Oita Prefecture. About 3,600 international students, among them 300 are Muslims, live in the city. With one out of 30 residents being an international student, Beppu is filled with a variety of cultures and continuously developing as one of the most international cities in Japan.
